
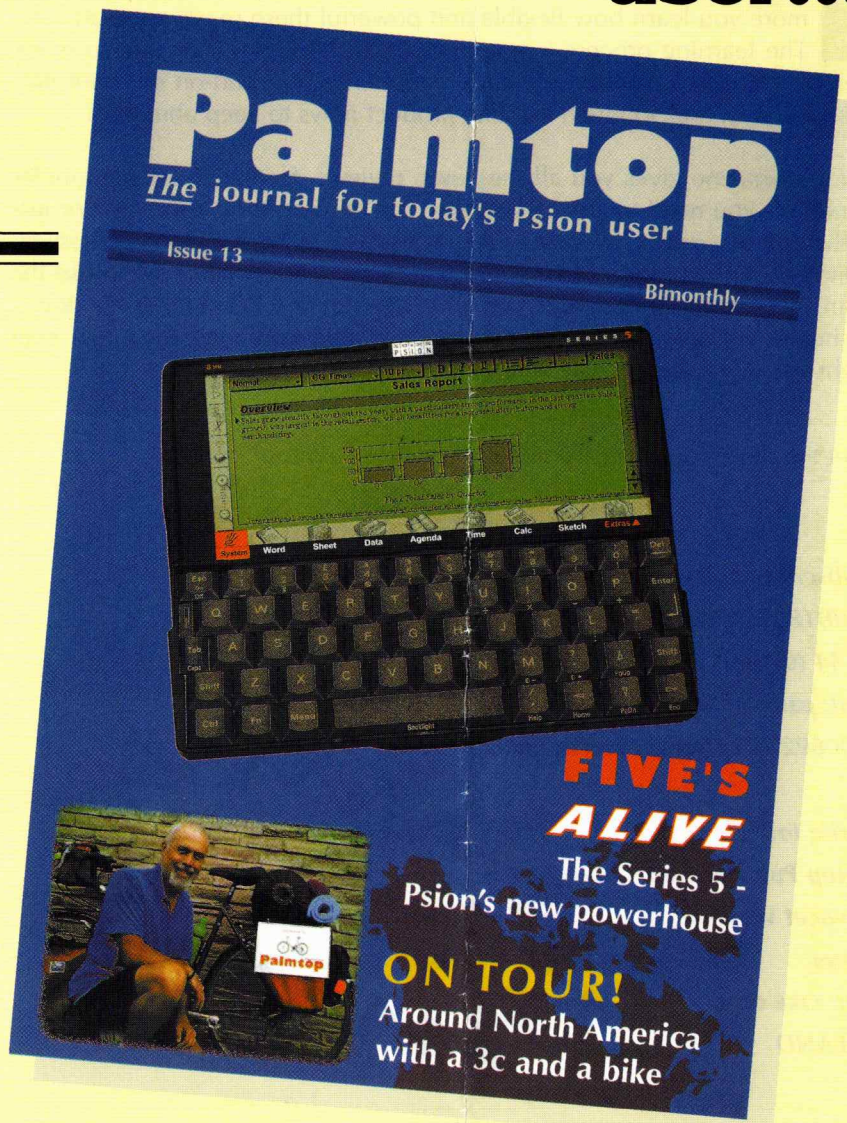
Essential for every serious Psion user...



— Simply the biggest and best source of information for Series 3a, 3c, Series 5 and Siena users!

— Each issue now around 120 pages thick!

— Readers in more than 60 countries across the globe—a magazine with truly international appeal!

Palmtop

The journal for today's Psion user

Your Psion palmtop is an indispensable tool. The more you use it the more you learn how flexible and powerful these machines really are. The learning process is not always easy though—there are so many pieces of software to master, so many peripherals and add-on software programs available, and so much exciting product news to keep abreast of.

Palmtop magazine gives you all the news, reviews, feedback, feature articles and tutorials you need to get the very best out of your Psion palmtop. For less than the cost of a single software package, a subscription to *Palmtop* keeps you informed on what's worth buying and what's not, shows you how to use the built-in software to the full, tells you what like-minded Psion users are doing, and shows you how to get more from your little computer than you ever thought possible—for a whole year.

So, get the most from your Psion palmtop—get *Palmtop!*
